THE NATIONAL REPUBLICAN HAS A LARGER CIRCULATION THAN ANY OTHER MORNING PAPER IN THE DISTRICT OF CO-

READERS OF THE NATIONAL REPUBLICAN Idealing the city for the summer can hear the paper mailed to their address for sixty-riz cents per ment, in advance.

THE French journals are complaining that Bazaine escaped through an open door. Why didn't they keep it shuff Reavis and sixteen other lunatics hold a convention in October to devise ways and means to remove the capital—provided they are not recaptured by their keepers.

WE SURRENDER a large portion of our space this morning to the long-expected statement of the "mutual friend" and peace-maker, Frank D. Moulton. By it Mr. Beecher stands convicted as an adulterer, liar, hypocrite and coward. Is it a veracious statement? Can this witness be impeached? Is this heathen, as he calls himself, a man who stands outside the door of Plymouth church, the only truthful witness in this whole case thus far, except Mr. Beecher? And if Moulton's statement be true, Mr. Beecher must not be excepted. As the case now stands, it is Moulton's word against Beecher's, Mr. and Mrs. Tho having both testified and asseverated both ways upon the subject at different dates. The reader must choose for himself which he will believe. It is a sad, unsavory business, in whatever aspect it is viewed.

THE RACE CONFLICT.

The New York Express, in an article upon this subject, makes some curious and mild lies have been subject, the second and will sink and the subject of the ways and in five appearance of the first propersion of the commandant, the balls of the propersion of the commandant, and the work-heps, and first propersion of our space this morning to the long-expected statement of the "mutual friend" and peace-maker, Frank D. Moulton. By it is subject to the purpose of easisting the chord of Plymouth church, the only truthful witness in this whole case thus far, except Mr. Beecher? And if Moulton's statement be true, Mr. Beecher? And if Moulton's statement be true, Mr. Beecher in this whole case thus far, except Mr. Beecher? And if Moulton's tatement be true, Mr. Beecher in this whole case

THE RACE CONFLICT.

The New York Express, in an article upon this subject, makes some curious comments, which, we are certain, its sober second thought will not sacution. It says, for instance: "The white demagogues in "spire the blacks to hate the whites as a "race, and the negroes are just ignorant "enough to be misled by them. Take the "example of Governor Ames, of Missister and his recent appeal to the President for Federal interference in the State.

"Except by a legal fiction, Ames, though "recently a Senator in Congress and now a "Governor, is no more a citizen of the "Congress at the various stations will also be abolished.

"Governor, is no more a citizen of the "Goo, M. Robeson, Secretary of the Navy." Governor, is no more a citizen of the Commonwealth than is General Grant or "General Sherman. He is simply a successful carpet-bagger."

Why is he not a citizen of the State? Governor Ames has lived in Miseissippi for years; he is a citizen of the United States, and the owner of a large amount of property in the State of which he is the Executive. If he is not a citizen except by a "legal fiction," then the residents of all the States who were not born within their limits are in precisely the same condition. The editor of the Express himself is a citizen of New York only by a "legal fiction," for we believe he came down from the New England hills several years ago, as Ames went down to Missis-

The effect of teaching and writing of the above character in journals of the ability and influence of the New York Express is bad and mischievous. It does more to fan the flames of the race issue in the South than almost anything else, for it is all reproduced in the local press, and the people of the South-the ignorant and thoughtless -are led to believe that the North sympathizes with them and is anxious to see them continue in their disastrous course. There are, of course, wrongs in the South which should be redressed-wrongs inflicted by Republicans-but the Republicans are not solely to be blamed for whatever of evil and misgovernment exists there. These wrongs can never be corrected by the knife and the pistol. Time, mutual concession, a spirit of fair play, justice and inaginanimity will do more to save the South and lead it up to attention of the fair play is the save the save the South and lead it up to attent northwest. The friends of the family are trepertuilly luvited to satiend. prosperity and peace than all the White Leagues that could be formed. Why cannot the Express aid in that work?

A CASE IN POINT.

It is the custom of the opposition press in their speculations and calculations upon a third term to say, count the Federal office bolders as unanimously in favor of it. The Harrisburg Republican convention shows how unfounded the charge is. That convention, it will be remembered, declared emphatically against a third term; in fact, put Gen. Hartranft in nomination for 1876. We do not know how many Federal office holders were there but that there were several we have no doubt. Certainly there was one, General Bingham, lately postmaster and now a quarter-sessions clerk. Unless we are very much mistaken he also the erection of the new post office building, which brings him several thousand dollars a year and affords him the opportunity to Ice Pitchers! Ice Pitchers!! employ a large number of carts and horses his own upon the structure, which we may be certain are well paid for by the Government. Bingham was one of the active managers of the convention and had a hand in fixing up its platform. When the Hartranft resolution was read, he did not make the slightest objection; we have no doubt that he cheered as loudly as the rest. Now. if Bingham, who is making as much as a score of small postmasters and officials, will not support the third-term idea, how is it expected that they will do so who have not SUPERIOR STEAM ENGINES AND one-fiftieth part his interest in the matter? The whole charge is a slander. Bingham by special machinery and duplication of parts. is a shining illustration of the manliness SAFE, and independence of that class of our

THE New York Evening Post is sadly out of sorts this year. Casting its eyes around it cannot find a single green spot in the political wilderness. It is equally disgusted with Eastern Republicanism and Wostern and Southern Democracy. "There is," it says, "absolutely no organized party in one State that can claim relationship to the party of the same name in another State, except it be through what Col. Benton used to describe as the 'cohesive powers of public plunder." It is not so many years since the Post was held in line by the same fetters through that pink of perfection Henderson, its business manager.

THE Graphic thinks that in case any day a European power should walts over here and OLD WHEAT FLOUR. plant its fing in the West India islands, or anywhere else, we could do nothing except write spirited leaders in the newspapers, for "thanks to our Western Congressmen, we have no navy worth mentioning, and are utterly powerless for offensive naval operations. * * * The best we can do is to recognize that an offensive naval war is quite out of our power, and to cease to talk about a Monroe doctrins which

we are poweriess to enforce." A NEW YORK PAPER Wants New York city created into a State, whereupon a Cincinnati journal follows suit and demands the same privilege for that city. We desire to put in

the same claim for Washington, and commend the subject of our form of government under ounsideration. Washington has more population than many of the Western States, and is about the control of the western States, and is about the control of the western States, and is about the control of the western States, and is about the control of the western States, and is about the control of the western States, and is about the control of the western States, and is about the control of the western States, and is about the control of the western States, and is about the control of the western States, and is about the control of the western States, and is about the control of the western States, and is about the control of the western States, and is about the control of the western States, and is about the control of the western States, and is about the control of the western States, and is about the control of the western States, and is a supplied to the western States, and it is a supplied to the western States, and it is a supplied to the western States, and it is a supplied to the western States, and it is a supplied to the western States, and it is a supplied to the western States, and it is a supplied to the western States, and it is a supplied to the western States, and it is a supplied to the western States, and it is a supplied to the western States, and it is a supplied to the western States, and it is a supplied to the western States, and it is a sup the idea to the Congress committee who have about the same size as Rhode Island.

A WESTERN JOURNAL gives some sensible advice to the statesmen who contemplate six and eight column speeches in the approaching campaign. It tells them 'all that is necessary to say can be condensed into two or three columns, and it is very difficult to find room in the newspapers for them. We are aware it requires more time to prepare a short speech than a long one; but one prepare a short speech than a long one; but one support in the column to A WESTERN JOURNAL gives some sensible ad-

selves to determine it, and to report on such arrangement as required by paragraph 508, United States Nary Regulations.

This circular is called for because many quarterly reports and log-books from the engineer department omit important matter and contain to-correct entries; and also because new apparatus designed for economy has been left unused in the absence of instructions as to its operation from the Department.

Communicing officers will see that the engineer reports are according to the Regulations before forwarding them.

The man who makes a speech longer than two columns and expects people to read it in this stage of the nineteenth contary possesses unpardonable egotism.
